WORK EXPERIENCE

Team Leader - Technical Project Manager | Qualabs

October 2025 - Present

- Led the development of Disney+'s internal Playback Inspector platform, a quality-control tool used to validate streaming assets
- Managed a cross-functional team of 4 software engineers and 1 Technical Lead, coordinating delivery, priorities, and team execution.
- Facilitated all Agile/Scrum ceremonies, including sprint planning, daily stand-ups, retrospectives, and backlog refinement.
- Acted as the primary point of contact with Disney stakeholders, providing visibility into project status, risks, blockers, timelines, and delivery progress.
- Gathered business needs and user pain points directly from stakeholders, translating them into actionable requirements, epics, user stories, and development tickets.
- Delivered product demos and milestone presentations, collecting feedback and driving continuous product improvements.
- Coordinated cross-team collaboration to ensure successful delivery of features across web, mobile, and platform integrations.

Ssr Full Stack Software Developer | Flow Labs

May 2024 - October 2025

- Specialising in mobile development using Flutter and Firebase, including Realtime Database, Storage, Authentication, and multiple Firebase Extensions.
- Deployed cross-platform applications (iOS, Android, Web), focusing on clean and engaging user experiences.
- Since May 2025, I have been working on the DwellSpring project, where I expanded into backend development using **Node.js**, designing scalable APIs and handling core business logic.
- Gained hands-on experience with AWS services (EC2, S3, CloudWatch) for deployment and monitoring infrastructure.
- This experience has helped me grow into a more well-rounded full-stack developer, blending UI development, backend engineering, and cloud operations.

Jr Full-Stack Software Developer | Light-it

February 2021- August 2023

- Developed APIs and backend features using Laravel, and built dynamic user interfaces with React.js.
- Gained experience with SQL and managed AWS servers for application hosting and deployment.
- Collaborated in both large and small development teams, working closely with QAs, project managers, and other developers.
- Participated in various client projects, including direct communication with USA-based clients, enhancing my communication and teamwork skills.

STUDIES

- **2020-2025:** Universidad ORT - Systems Engineering
- **2023-2024:** Erasmus at Università Sapienza di Roma
- **2018-2019:** Stella Maris College - International Baccalaureate
- **2003-2017:** Stella Maris College - Primary and Secondary Studies

SKILLS

- **Languages & Frameworks:** Dart, Node.js, TypeScript, Flutter, React, React Native, BrightScript, PHP, Swift
- **Backend:** Express.js, Firebase, Laravel
- **Tools & Cloud:** AWS, Git, Docker
- **State Management:** Zustand, React Query
- **Styling:** Tailwind CSS
- **English** – C1 level (spoken and written), certified by the International Baccalaureate.
